

# The 2026 Playbook

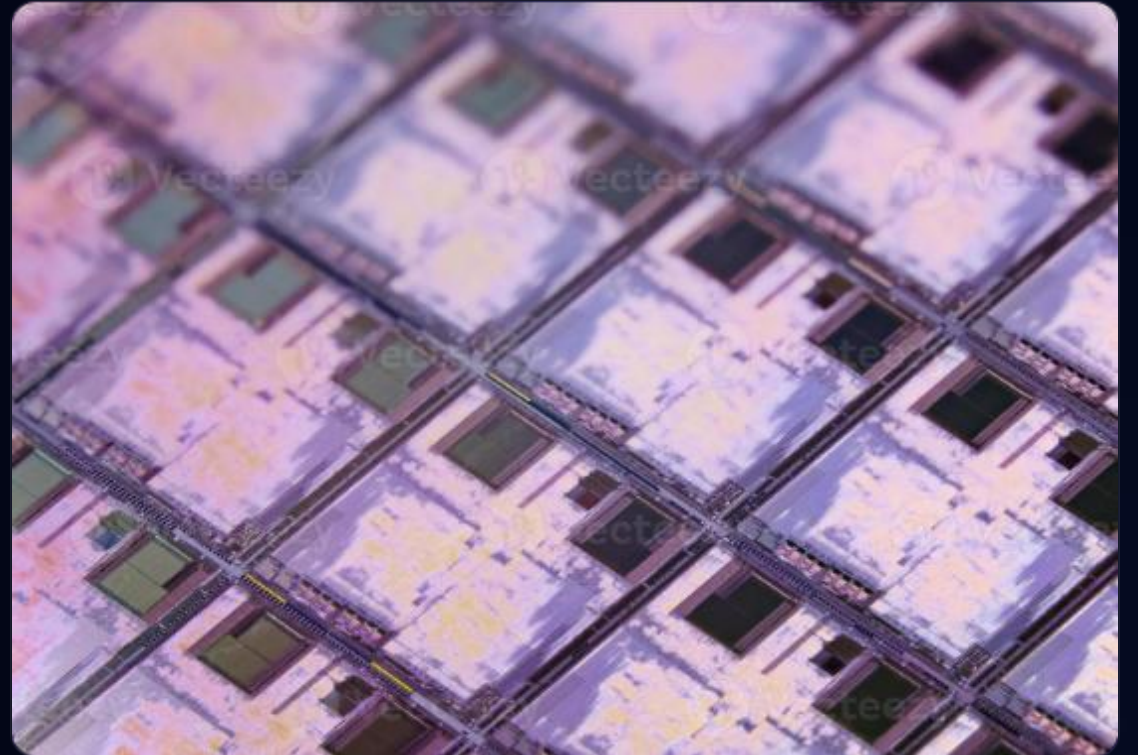

Empowering the \$1.2 Trillion Semiconductor Frontier  
through Editorial Authority and  
High-Intent Technical Audience Reach.

# Market Forecast: The Trillion Era

## Sustained Growth Path

EEHerald places your brand at the epicenter of this structural repricing, focusing on cutting edge electronics and semiconductors

Global revenues are projected to exceed trillion US\$ 1.2 Trillion by year-end 2026, a increase driven by AI infrastructure and memory demand.

# Critical 2026 Industry Pillars

## Physical AI

The transition from experimental prototypes to enterprise-grade autonomous systems requires specialized, low-power edge silicon.

## Sustainability

Circular design and disassembly become regulatory mandates. Power efficiency is the new performance benchmark in 2026.

## Chipelets

Modular architectures move mainstream, allowing heterogeneous integration of compute, memory, and high-speed I/O.

# | Seniority That Influences ROI

# 65%

Senior Decision Core

## Targeted Engineering Influence

Our readership is intentionally weighted toward those with technical approval authority. We don't just reach engineers; we reach the decision-makers who design the next generation of infrastructure.

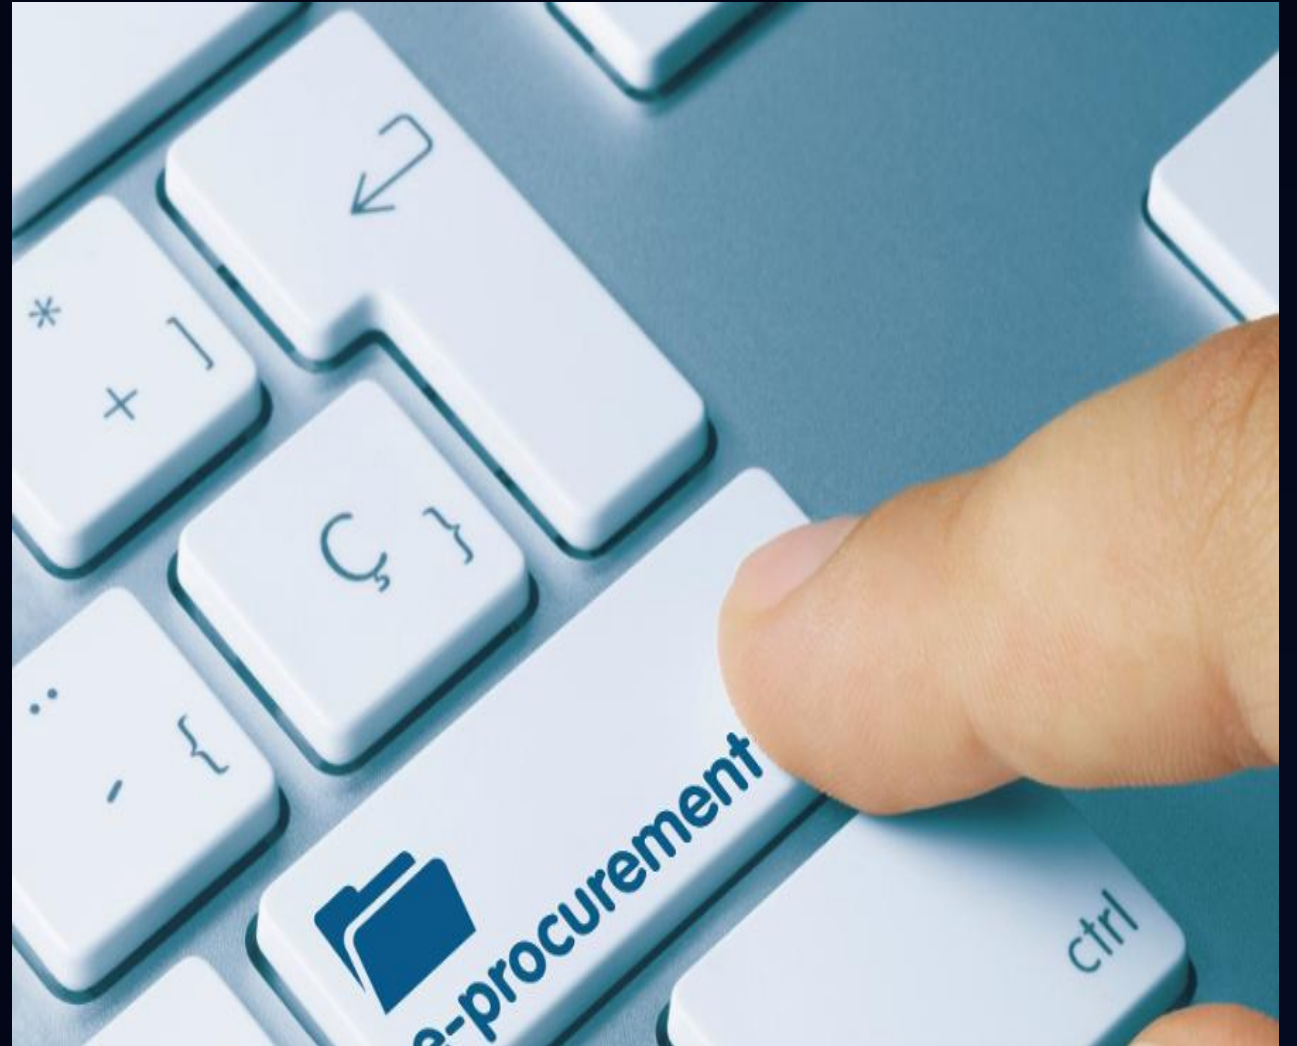

- **30%** Senior Design Engineers
- **25%** Management Cadre
- **10%** CEO / CTO / VP Suite

# Enterprise Market Penetration

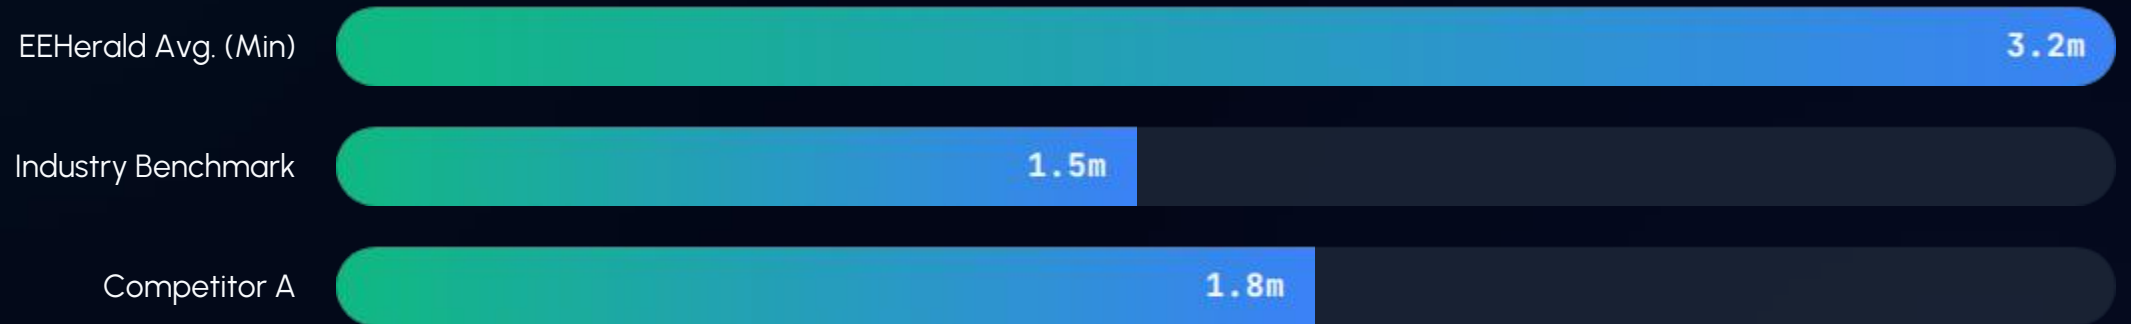

## 60% Tier 1 & Tier 2 Presence

EEHerald provides exclusive access to the organizations representing the largest portion of electronics procurement globally.

From hyperscale data center providers to leading automotive OEMs, our audience is built from the top down, ensuring your solution is framed within a high-value corporate context.

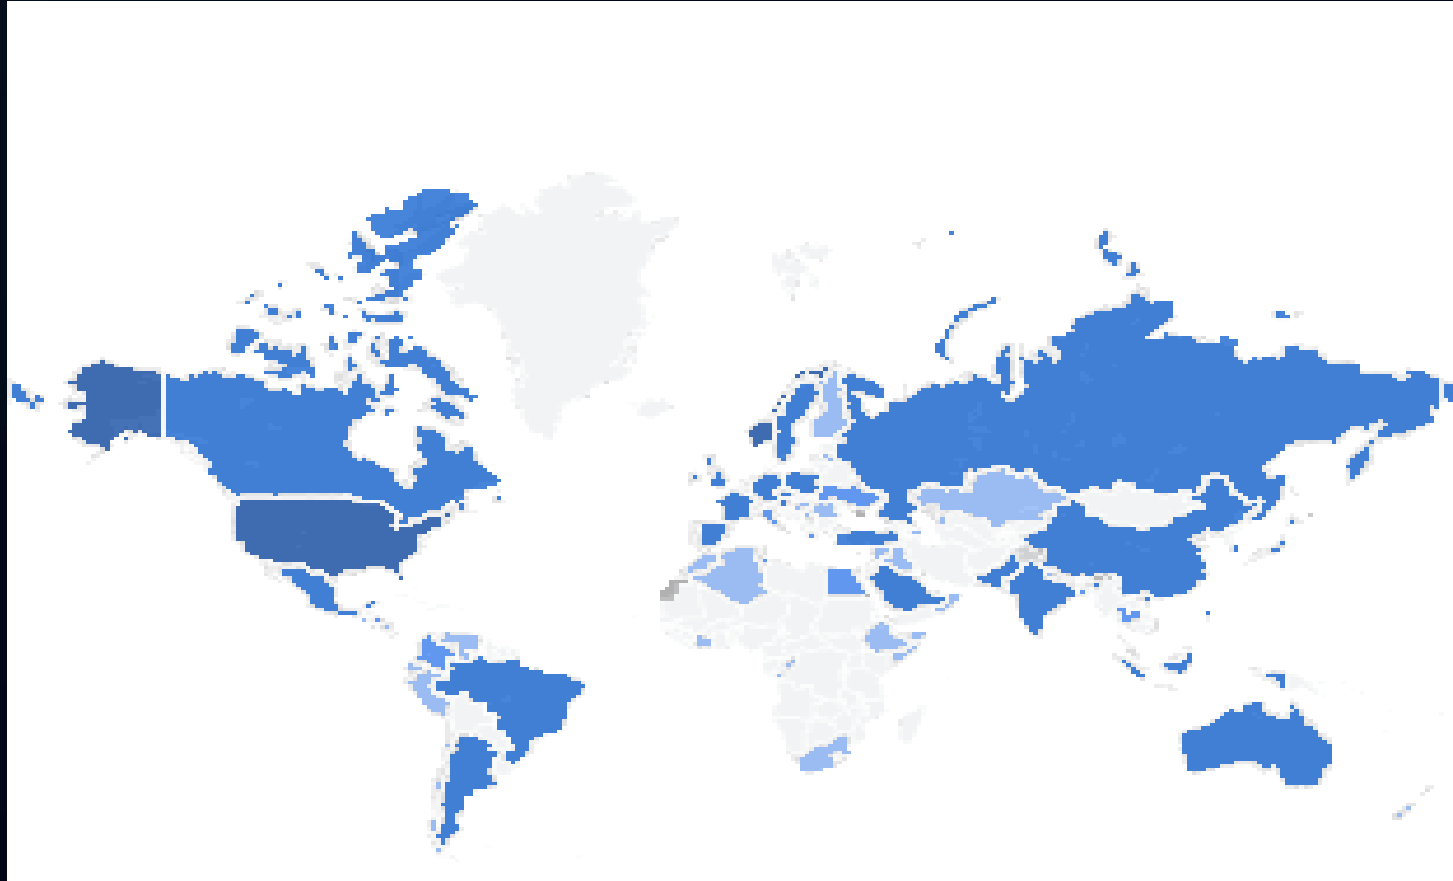

# | Unmatched Audience Engagement

Attention is the new currency. EEHerald readers stay longer because they value our depth.

# | Global Audience

A major percentage of readership is in India, followed by the USA, Europe, Russia, East Asia and South America

# | EE Advertiser Value

Critical Metric	EEHerald Performance	Industry Standard	Why It Matters
Targeted Audience Quality	High density of Senior Design Engineers & CTOs	Generalist engineering audience	Ensures decision-makers see your ad, not just casual observers.
Engagement Rate	High average time-on-page (>3 minutes)	Typically <1.5 minutes	Proves the content is being read, not ignored.
Editorial Trust	Unbiased, deeply technical analysis	Often heavily sponsored/PR-driven	Aligns your brand with high-credibility, "gold standard" content.

# EE Advertiser Value

Critical Metric	EEHerald Performance	Industry Standard	Why It Matters
Content-Audience Fit	Granular coverage (Chip design to passives)	Broad, shallow overview	Ensures your technical solution is framed within its relevant ecosystem.
Multi-Channel Impact	High conversion rates from Newsletter to Whitepaper	Standard email engagement	Confirms your message travels across multiple touchpoints.

# | A Roadmap of High Intent

## Content Split Analysis

Our engagement metrics confirm that readers are actively seeking technical innovations to solve current design bottlenecks.

- **45%** Breaking Industry News
- **35%** New Product Launches
- **10%** Design & Verification Guides
- **10%** Others (Editorial/Opinion)

# EEHerald vs. Industry Standard

Metric	EEHerald Performance	Industry Standard
Audience Seniority	65% Sr. Mgmt / Lead Eng	20% - 25% Generalist
Enterprise Reach	60% Tier 1 & 2 Companies	Highly Fragmented SME
Editorial Focus	Technical Deep-Dive Analysis	PR / Sponsored News Aggregation
Lead Quality	High-Intent Design Engineers	Casual Browser / Non-Tech

# Multi-Channel Ecosystem Impact

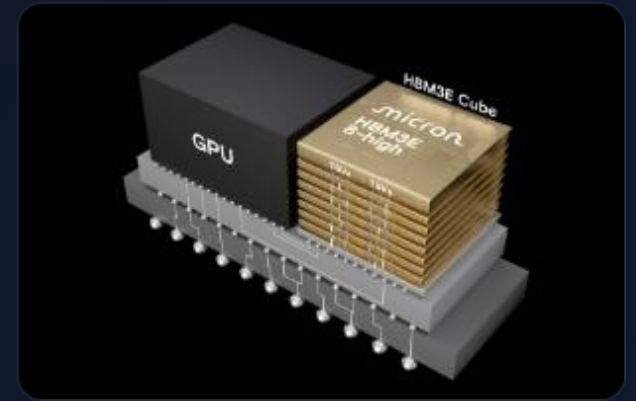

## High-Traffic Web

Real-time technical news and SEO-optimized product hubs.

## Verified Newsletter

Direct inbox reach to 10,000+ verified engineers weekly.

## Whitepaper Leads

Demand generation through gated technical resources.

---

# High-Impact Partnership Packages

Scalable Advertising Models for 2026 Fiscal  
Strategy.

# | 2026 Advertising Tiers

## Leadership Package

- ✓ Full Site Takeover (24 hrs)
- ✓ Dedicated Webinar Hosting
- ✓ Prime Newsletter Placement
- ✓ Unlimited Lead Generation

## Growth Package

- ✓ Monthly Display Campaigns
- ✓ Native Content Sponsorship
- ✓ Quarterly Product Focus
- ✓ Social Media Syndication

# Let's Build 2026.

Secure your position at the center of the semiconductor  
revolution.
